PROFILE

B.Sc. Science and Mathematics student (graduating 2027) with hands-on skills in Python, SQL, NumPy, Power BI and Excel. Comfortable turning raw data into clean, interactive dashboards and clear business insights, and experienced in using AI tools such as ChatGPT and GitHub Copilot to speed up analysis and code. Seeking an entry-level Data Analyst role where I can apply strong analytical and problem-solving skills.

EDUCATION

B.Sc. in Science and Mathematics

2025 – 2027 (Expected)

- Rajeev Gandhi Mahavidyalaya / P.G. College
- Pursuing core coursework in Mathematics and Statistics alongside self-driven data analytics projects.

TECHNICAL SKILLS

-
- Programming & Databases: Python, SQL
 - Libraries: NumPy, Pandas
 - BI & Visualization: Power BI, Dashboard Development, Data Visualization
 - Tools: Microsoft Excel (Pivot Tables, Charts, Formulas)
 - Core Areas: Data Analysis, Data Cleaning, Reporting

AI TOOLS

AI Assistants: ChatGPT, Claude, Microsoft Copilot

AI for Development: GitHub Copilot – code assistance and debugging support

AI in Analytics: Power BI Copilot, AI-assisted data cleaning, prompt writing for faster analysis and report drafting

PROJECTS

Blinkit Sales Dashboard | Power BI

- Built an interactive sales dashboard in Power BI to track overall sales, orders and revenue trends across categories and outlets.
- Analysed sales data using charts, KPI cards, slicers and filters to identify top-performing products and peak sales periods.
- Designed drill-down visuals so stakeholders could explore performance by category, item and time period at their own pace.
- Presented business insights in a clear, user-friendly layout to support fast, data-driven decision making.

E-Commerce Sales Dashboard | Power BI

- Developed an e-commerce sales dashboard covering revenue, category, regional and customer-level performance.
- Compared sales trends over time using multiple visualisations, filters and slicers to surface actionable patterns.
- Cleaned and structured raw sales data in Power BI to ensure accurate, consistent reporting.
- Structured the report so key metrics are visible at a glance, helping business users make quicker decisions.

CERTIFICATIONS

- Data Analytics Certification – TOPS Technologies

SOFT SKILLS

Communication • Problem Solving • Analytical Thinking • Teamwork • Time Management • Adaptability • Quick Learning • Attention to Detail
